

Since 2013, the **Holiday Farm Finagliosu** is an **Educational Farm** recognized by the [Autonomous Region of Sardinia](#)

The **Farm Finagliosu** offers educational courses dedicated to young children in kindergarten and elementary school. The objective

is to provide children with the knowledge necessary for the performance of some simple processes such as, for example

that of the passage from milk to cheese

At the same time young people will be involved

in the operations  
and will participate  
actively in the implementation  
of the final product

.  
In this way, *Rita* and *Gavino*, owners of the **Farm Finagliosu**, want to give children the love  
for the land  
(inherited  
from their  
grandparents)  
and  
the products that it  
offers us  
and

,  
at the same time  
, respect  
for nature  
that  
is  
to animals (  
present in large amounts  
in the company  
).

The hope is to ensure that the children of today are men and women pay more attention to  
those that  
are the values that  
nature gives us  
but also  
for people who love  
their country and  
who  
are thoroughly familiar with  
its fruits.
